

to Austin  
Closter, N.J. Sept. 23-73

Dear Dr Gray

I want to go to Florida this winter on an expedition for Mon. &c. that region appears to be as yet unexplored & to abound in new Mon. &c.

Had Mr. Sullivan lived it was his intention to furnish the necessary funds, and I was to go about the 1st of Jan. next.

I propose to try to raise the necessary funds (say \$200 - \$250) by subscription - each subscriber to receive a

part of the specimens, on  
my return. Would  
you like to take a little  
stock - say \$10-\$15 - worth  
in the Enterprise?

I am now printing the  
bulletin of the "Hepot  
Expic" It comprises  
125 numbers. I will  
be put to a few sub-  
scribers at \$15, until  
a sufficient amount is  
paid for printing is raised.  
(The regular price will  
not be below \$20)

In looking up my  
specimens of Anttroans  
for the Hepot. Expic.

about a week ago I  
ran across no less than  
3 well marked U. Sp. for  
the South!

Very truly yours

C. F. Austin
